

Crodabond™ CSN

Naturally boosting broad-spectrum UV protection

100% naturally derived emollient that:

- Optimises film-forming properties of sunscreens
- Enhances efficacy of organic and inorganic UV filters, boosting SPF and UVA protection
- No detrimental impact on formulation sensory and aesthetics

INCI: Hydrogenated Castor Oil/Sebacic Acid Copolymer

Recommended use level: 1-3%

Key claims and data:

- SPF and UVA boost proven through in vitro and in vivo methods
- Improves formulation spreadability and the distribution of UV filters
- In vivo sensory evaluation confirms no detrimental impact to formulation sensory or aesthetics
